The chief executive shall also make any other reports at other times as may be required under applicable Federal laws. This section is not subject to termination under section 502(a)(3) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (90 Stat. 263, 268).”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. DOOLITTLE) and the gentleman from California (Mr. DOOLEY) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. DOOLITTLE).

Mr. DOOLITTLE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 3002 will provide for the continued preparation of certain useful reports concerning public lands, Native Americans, fisheries, wildlife, insular areas and other natural resources-related matters.

Section 3003 of the Federal Reports Elimination and Sunset Act of 1997 terminates all reports to Congress contained in House Document 103-7 as of December 21, 1999. This document lists statutorily required reports to Congress from various executive branch agencies.

The philosophy of the Federal Reports Elimination and Sunset Act is to “alleviate the paperwork burden on executive branch agencies.” Certainly the reduction of unnecessary paperwork is a worthy goal. However, some consideration must be given as to why a statute mandates a certain report and as to how this information is used by the Congress and the public. In the case of the Committee on Resources, this information greatly aids our oversight activities and the development of legislation. The reports also provide the public with valuable insight as to how Federal tax dollars are being spent.

Without action by Congress, many critical reports will be lost before the end of the year, requiring extensive amendments to underlying statutory authorities to reinstate the reports. H.R. 3002 will restore 128 reports, including implementation costs of the Endangered Species Act, notices of withdrawals of public lands, rehabilitation needs for National Forest System lands, threatened areas on the National Register of Historic Places, management plans for National Parks, proposed oil and gas leasing programs on the Outer Continental Shelf, proposals for projects under the Small Reclamation Projects Act, and audits of financial assistance provided to the insular areas of the United States.

The bill also makes technical changes to some underlying laws which authorize repealed or sunsetted reports. Time constraints preclude additional mop-up work in this area, but the committee intends to work on technical amendments in another vehicle soon.

These reports are needed for effective congressional oversight and to allow the public to see how their taxpayer dollars are being spent.

I urge support for this bill.

Madam Speaker, I reserve the balance of my time.

Mr. DOOLEY of California. Madam Speaker, I yield myself such time as I may consume.

(Mr. DOOLEY of California asked and was given permission to revise and extend his remarks.)

Mr. DOOLEY of California. Madam Speaker, we have no objection to this

legislation. The bill would extend the existing requirements that the administration report to Congress on certain subjects of interest to the Committee on Resources. These reports would otherwise terminate in December 1999 under the Federal Reports Elimination and Sunset Act of 1995.

H.R. 3002 was not subject to a committee hearing. However, since the committee markup, the CBO has concluded that the cost of extending the 128 separate reporting requirements would be about \$1 million annually, subject to appropriated funds. And neither OMB nor the affected department or agencies have raised specific concerns about this legislation.

Accordingly, since the administration has not objected to this bill and because it does not appear to be exceedingly burdensome or expensive, we support its passage in the House.

Madam Speaker, I yield back the balance of my time.

Mr. DOOLITTLE. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. DOOLITTLE) that the House suspend the rules and pass the bill, H.R. 3002.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

FACILITATING WATER TRANSFERS IN THE CENTRAL VALLEY PROJECT

Mr. DOOLITTLE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 3077) to amend the Act that authorized construction of the San Luis Unit of the Central Valley Project, California, to facilitate water transfers in the Central Valley Project, as amended.

The Clerk read as follows:

H.R. 3077

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ELIMINATION OF RESTRICTIONS ON USE OF SAN LUIS UNIT FACILITIES FOR WATER TRANSFERS IN THE CENTRAL VALLEY PROJECT.

(a) ELIMINATION OF STATUTORY RESTRICTIONS.—Public Law 86-488 (74 Stat. 156) is amended—

(1) in section 2 by striking “and the use of the additional capacity for water service shall be limited to service outside of the Federal San Luis unit service area”; and

(2) in section 3 by adding “and” after the semicolon at the end of paragraph (h), by striking the semicolon at the end of paragraph (i) and inserting a period, and by striking paragraph (j).

(b) REQUIREMENTS FOR DELIVERY INSIDE FEDERAL SERVICE AREA.—Such Act is further amended—

(1) in section 2 by inserting “(subject to section 9)” after “a perpetual right to the use of such additional capacity”; and

(2) by adding at the end the following:
“SEC. 9. The State of California may not, under section 2, use additional capacity to

deliver water inside the Federal San Luis unit service area unless—

“(1) such delivery is managed so as to ensure that—

“(A) agricultural drainage discharges arising from use of the delivered water—

“(i) comply with any waste discharge requirements issued for such discharges; or

“(ii) if there are no such waste discharge requirements, do not cause water quality conditions in the San Joaquin River and the Sacramento-San Joaquin Delta and San Francisco Bay to be degraded or otherwise adversely affected; and

“(B) use of the delivered water for irrigation does not frustrate or interfere with efforts by the United States and the State of California to manage agricultural subsurface drainage discharges from the San Luis unit; and

“(2) such delivery is consistent with those provisions of operating agreements between the Secretary and the Department of Water Resources of the State of California that are consistent with this Act.”.

(c) AMENDMENT OF EXISTING AGREEMENTS.—The Secretary of the Interior—

(1) shall seek to amend each agreement entered into by the United States and the State of California under section 2 of Public Law 86-488 before the date of the enactment of this Act, as necessary to delete from such agreement restrictions on use of additional capacity for water service for land in the Federal San Luis unit service area that are not consistent with the amendments made by this Act; and

(2) pending such amendment, shall not enforce any such restriction.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. DOOLITTLE) and the gentleman from California (Mr. DOOLEY) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. DOOLITTLE).

Mr. DOOLITTLE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, Federal agricultural contractors in the Central Valley Project of California who rely on exported water supplies from the Sacramento-San Joaquin River Delta have seen substantial reductions in their Federal water supplies over the last several years, even though these last few years have been “wet” years. This reduction has been increased because of the accumulated impacts of implementation of the Endangered Species Act, the Central Valley Project Improvement Act, and the Bay Delta Accord.

This reduction in CVP export supply reliability has increased the desire of many water managers to pursue water transfers. Additionally, numerous State laws and Federal laws have been enacted in an attempt to facilitate water transfers to assist agricultural and urban water users in maintaining reliable water supplies.

The San Luis Act of 1960 prohibits the State of California from providing water service to the San Luis Unit of the Central Valley Project. The committee believes this prohibition is inconsistent with current Federal and State policies which encourage and facilitate water transfers.

H.R. 3077 amends the Act of 1960 by eliminating the restrictions on use of

San Luis Unit facilities for water transfers in the Central Valley. The gentleman from California (Mr. DOOLEY) is the author of this legislation, and in just a moment I am sure will add his explanation.

This morning we received a letter from Governor Grey Davis of California in support of H.R. 3077.

Madam Speaker, I reserve the balance of my time.

Mr. DOOLEY of California. Madam Speaker, I yield myself such time as I may consume.

(Mr. DOOLEY of California asked and was given permission to revise and extend his remarks.)

Mr. DOOLEY of California. Madam Speaker, California's San Joaquin Valley is one of the most productive agricultural areas in the world. The lands that receive water from the San Luis Unit of the Central Valley Project are especially productive. Farmers here are highly dependent on reliable deliveries of surface water in order to sustain crop production in the valley.

But even in the best years, water supplies from the Central Valley Project are often limited. Many farmers in California now improve the reliability of their water supplies by working out water transfer arrangements with other water users so that the limited supplies can be moved around and used more efficiently. But farmers in the San Luis Unit cannot freely participate in these transfers because the San Luis Act of 1960 prohibits the State of California from providing water service to the San Luis Unit. I believe this restriction makes it unnecessarily difficult for San Luis Unit farmers to take advantage of water supplies that might otherwise be available to them. I also believe this restriction in Federal law is outdated and inappropriate. H.R. 3077, as amended, will address these problems by eliminating the restriction on delivery of water from the State of California to lands within the Federal San Luis service area.

This is significant legislation affecting water management in California. Its effect will be to allow the delivery of water from California's State Water Project to lands within the San Luis Unit. The State of California operates the State Water Project, and Governor Davis, as the gentleman from California (Mr. DOOLITTLE) cited earlier, has advised me and others that he supports enactment of H.R. 3077, as amended.

Madam Speaker, I include the Governor's letter of November 5, 1999 at this point in the RECORD.

GOVERNOR GRAY DAVIS,
Sacramento, CA, November 5, 1999.

Hon. CAL DOOLEY,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE DOOLEY: I am writing to advise you of my support for H.R. 3077, which you recently introduced along with Representatives Gary Condit, George Radanovich and Bill Thomas.

As you know, H.R. 3077 would authorize water users in the San Luis Unit of the Central Valley Project (CVP) to purchase water
